BOUTELLE & BURR, PROPRIETORS G, A. BOUTELLE, EDITOR.

THURSDAY, APRIL 29, 1886.

The bill for the establishment of a port of entry a Mount Desert Ferry now goes to the President for his signature, having passed the House yesterday.

Occasionally in a fit of anger a Demo-cratic paper blurts out the truth in a most emphatic manner. For instance the St-Joseph Gizette and "The Democratic par y at b est in Missouri is made up large y of a lot of ruffians, Mugwumps and bull-

The Bosson Herald admits after a year trial that it is very doubtful if the Demi eracie party can keep pace with the pre-gressive ideas of the country. That is the ost sensible remark we have read in the Herald since it became the special chamion of sham reform.

The Democratic papers in this State continde their efforts to distract public attention from the demoralized ecudition of their own party by picturing imaginary he votes are counted in September next they will lind that the Republican party m Maine is an extremely healthy organi-

ty. The met is of the sixty two men empicked in his district twenty-seven are Democrats twenty-six Republicans and nine are Independents. The San should be more cautious in the future with its

he Denuty Collector of Faternal Reve nul at Augusta continues to write politient articles for the Portland Argus. If he voted the Republican instead of the Democratic ticket he would be an offensive partisan. As he votes al. right, howeve nothing will be said about the political work, regardless of the fact that it is in direct violation of the alleged reform policy For the Advainistration.

State Senate Co unittee to investigate the frauds in the learning to late elevions by which four emocratic Serators from Hamilton County secured the tests properly billionging to he Republicans , propose to ake advantago of the frauds and retain possession of the seats, if possible. This is done in spite of the fact that Democrats ittem to do with the salked ease be selves hive admitted that no member of land with not unter him to have their party was elected in Hamilton County. The l'arty of "reform" needs an other lesso at the polls similar to, that ad ministered this spring.

Commening on Postmaster General itus freform work, the Boston Journal says: There is a good deal of complaint in Maine over the inefliciency of the rdi way nati service, and it is not to the wondened at when it is understood that about hill of the arm loves to the the eru loyes in that service have been changed diring the past year. It is not an unknown event for new men in that service to fail to get their papers after inving served the required probationary perjod, and it is understood that one of t hirman Brown's appointers has had his nofficient enough to pass the required ex-

o the Post Office Appropriation bill which ontracts with American steamships for ndreel to promote its passage in Congress, bit promised to execute its provisions inwase it became a law. Phe committee had . osition, and he explained to them why he did not carry out the law of last year.

and Boutelle can get no "issue" out of it.

u on Davis for an "Issue" as the present sham reform Administration, continues to play leas to the reception accorded the "Ex-Chiefman" of the Confederacy, whose portrait it put lishes in connection with its

advertised to be sold at auct on next Thursday Tacadvertisement enginerates all of the household furniture and ornahas been a good deal of humbug talk, at the State Department about the Baron's being kept in Austria on account of, ill-health. This ill-health is simply a diploment of any Minister to Austria, on account of the rejection of Kelley. The Austrian Government has whited a reasonable relations between the two countries.

The Chicago Inter-Ocean says CDr. De Bausset, who has been for several years attempting to solve the problem of nerial havigation, has just made a practical test that is of cons derable interest to the pubdic. The plan is to build a steel cylinder 270 feet oug and seventy-five feet in diameter, wit a nicety foot cone at each end, the entite length being 450 feet. Beneath this cylinder it is proposed to suspend a car which will be some 120 feet long and will carry the motor and a large number of passengers. The helation process will be dispensed with and the cylinder will be almost a complete vacuum. He proposes to use glectricty as a motor, and expects to attain a speed of fifteen or twenty pilles an hour near the earth spatriace and from forty-live to sixty failes an hour at an altitude of 8,000 feet. To accomplish this he will use dynamo-electric motors which will

The United States flish Commission has recently assued an interesting paper upon the subject of lobsters. The overs of the subject of lobsters. The farmer's of, this nation demand the prompt passage by Congress of islaw propulating all initiations of butter and regulating the manufacture, sale and taxation lating the manufacture, sale and taxation the chere are done. tries the patience of the people, and gives Tie plum's faut wife help o the millimatir counterfaiters, who are growing richer day by with compared ledy little areation. A sel ide bird, tilthy fats, cotton seed oil ai d the fixe it the price of genuine dairy but-

the fixed of the price of genome dairy butters.

At Inferime butt-was passed by the fown those on March 20th.—It was put forward by the dairy interests of the state to protect, them, against additeration of dairy products. It defines, as indicating butter and intration cheese anything in the semblance of those articles made from anything disc than pure nilk and pure cream. It provides a stringent pe alty for every att mpt. The static can be stringent pe alty for every att mpt. The static time is away to deceive the public. It describes the way in which the static can regarded where the static can regarded with a stringent pe alty for every law in the provides a stringent pe alty for every att mpt. The static can regarded where they have stand, leading the translation article must be subject the static can regarded where they have stand, leading the reasonably in the static can regarded where they have stand, leading the resulting and requires that to every east, or backage of buttarine, or examine the fact of its being an indication article shall be stated in large proved and stated in large proved and the stated in large and instinction articles shall be stated in large and the stated i and onevery plate of imitation butter or come ciscases or die of the young trees can onevery place of inflation butter or take that is brought on the first a that it is brought on the table stating take that it is not the remumeration. Then it reputation is the remumeration. that this not the genuine article. Then it provides tringent penalties for all store-keepers, warehouse men and commission men who handle or keep the imitation artice on sale without making apparent the fiet that it is not genuine. It provides for the establishment of a State duity de-portment, with a commissioner at its head, who shall be puid a salary of \$1,500, and have full power to enforce the provisions of the act. For this purpose the sum of \$20,000 is appropriated for the next two years, and every effort will be made to enforce the laws to the letter. A similar law has been enacted by the Connecticut Sicily Canary,

Oll current bushes are among the most unpromising things with which one has to deal; their tangled and missbapen wind ever is done should be undertaken Hix R B (Seed and little sh. De ro; a le v yo ir bird to en dirty sied. Dothing is so bijurious Had the capary during the first mild spell, as the current pashes yery early. The bush will probably lare numerous shoots starting from saed sold i daty Spanish, at la large part by a venumerous shoots starting from said sold is dry spinish, at a large part below ground, or near the surface; but is many, and will kill your id. All out out all but four or six of these, neovid og BRID SHELIS and warranted the very teeth sixe of the plant, leaving only the best, there ignly resisted and very clean most mentally looking ones, and take as we sell so much that it is it vays, it is a cree to have these as oqually distant as Buy of its individually the said to the sell so the creeks as the said to the sell so the creeks as the said to the said of the said to possible. The fruit is borne on wood two very best; clan, fresh sec, at the very or to revears old. One-year-old wood is distinguished by its different color, and smal buds. Lut out all weak shoots of this kind, and shorten the stronger ones two hirds or one-half. Manure around the bushes, and when dry weather aptheir best, and start a new plantation In any quantity, for sale at this which will come into bearing in two years,
